# Company Overview

---

iTech Security is a Johannesburg-based IT and Security Systems company specializing in the supply, installation, and maintenance of advanced security and office automation solutions for residential, commercial, and industrial clients. We combine cutting-edge security technology with modern IT infrastructure to provide integrated, reliable, and scalable solutions that protect assets, improve operational efficiency, and enhance business continuity. With a strong foundation in both IT and physical security systems, iTech Security delivers professional-grade installations using globally recognized brands and industry-leading equipment.

## Our Mission

To deliver dependable, innovative, and cost-effective security and IT solutions that empower businesses and homeowners with safety, control, and connectivity.

## Our Vision

To be the first line of defense for our clients by delivering advanced, reliable, and proactive security solutions that protect against intrusion, threats, and operational risk. We are committed to ensuring that every client we serve is secure, protected, and confidently connected.
